

# Wilson Primary School Homework Grid

Year: 3

Term: Summer

Weekly Homework:	Reading		Times tables	
Topic: Fairgrounds	Learning Opportunities			
<b>Literacy &amp; Communication</b> (Speaking and listening, language and literacy)	Create a story setting as if you have just arrived at a fun fair. Use your senses to create an atmosphere. 	Oh no, disaster has struck the fairground! One of the rides is broken and people are stuck at the top! Write a newspaper report to recount this event.	Can you write a playscript that links to a fairground? Maybe a magical fairground comes to town? Maybe you get lost at a funfair? Don't forget your stage directions!	Create an acrostic poem using the words 'Fairground.' 
<b>Maths &amp; Problem Solving</b> (Maths, thinking skills, Logic, Problem solving)	Sojo, the ringmaster, is having trouble organising shapes. Create a table to organise the shapes below: Circle, square, triangle, hexagon, octagon.	Bobo the clown is going shopping to buy some meat for the circus lion. Create a shopping list for Bobo and work out the total cost for his shopping. You could use column method to help you!	We need some fairground word problems. Can you create some questions for your friends in class to answer. 	A fairground stall costs £50 a day to run. If 100 people visit the fair that day, how much would the stall charge to make a profit? Work out 3 different possible prices.
<b>Science and the Outside environment</b> (Science, PE, Healthy lifestyles, Eco issues and investigation)	Can you create a new fairground game that uses your whole body? Remember to write some rules so others know how to play.	Fairgrounds have lots of sugary treats for you to eat. Could you think of some healthier alternatives? Create a healthy fun fair menu.	If we are making a slide, we want a material that will create the least amount of friction. Concrete? Wood? Material? Use a toy car to test these materials. Which one is best? Record how you worked this out and your results.	There can a lot of rubbish left over at a fairground, so we must make sure they recycle. Create a leaflet to explain the importance of recycling so we can send it to fairgrounds all over the country.
<b>Humanities and Citizenship</b> (RE, History, Geography, Moral & Social and Economic Awareness)	Create a fact file about the oldest theme park in the world. Can you find any facts about it?	We have recently been looking at the Hindu festival Holi. Can you find out about any other religious festivals? Write down any facts that you find. 	Can you find the location of 5 different theme parks around the world? You could print a map and create a key for each place.	Some people argue that fairgrounds are too noisy to be near houses. Do you agree or disagree? Justify your answer by writing your opinions in a paragraph.
<b>Creative Arts</b> (Art, Design & technology, Music, Drama & Dance)	Listen to some fairground music. Can you recreate your own? Make a list of instruments you would use.	Choose your favourite artistic technique to create a fairground picture. This could be chalk, paint, pencil or collage.	Create a poster to advertise a new ride at Legoland. Make sure you include a picture and when it opens!	Fairgrounds are always full of music and sound. Can you create a new instrument using things around the house that can create sound.

ICT will be used where appropriate in all subjects

Remember to choose at least x1 activity from each row.

Homework needs to be completed and ready to present to your Class and Teacher on: 20<sup>th</sup> July
